4	I gained new knowledge related to my study from this virtual visiting professor program	4.349
5	My overall satisfaction with this virtual visiting professor program	4.349

Share your opinion about this training

The beginning was very interesting and gave me new insights. Unfortunately, it was a bit too long for me and the part with global food and the 3D printers was not really needed, since it doesn't help me in this subject. But Prof. Dr. Kim did it very well and shared many interesting ideas with us.

It's good

the topic is very interesting and beneficial.

I have learned about the relationship between COVID 19 and the demand of the tourism industry.

Got many new ideas and improve myself during the lesson.

Very nice

It's very hard

Very good 

So good and can see the new side of tourism industry.

I think a lot of information.

Easy to understand

This is acceptable.
